# PRINCIPAL'S MESSAGE

This yearbook represents the culmination of a great deal of work on behalf of the yearbook staff. In the years ahead, I know that many students will look back fondly at the photographs and activities contained within the pages of this book. I hope, too, that these photographs will conjure up happy memories of the months and years spent in junior high school.

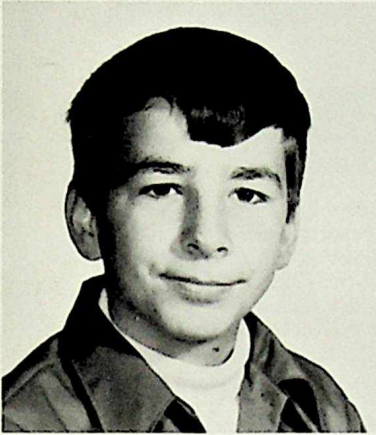

One of the complaints heard frequently during the past few months, both within the school and in the community, was that students demanded more freedom and less authority. The youth of our nation wants the right to think what they want; say what they want, and do what they want. All this in the name of freedom. However, what most of these people fail to realize is that with freedom goes responsibility. If each person is truly willing to accept complete responsibility for his own thoughts, words and deeds, then he should be given the privilege of freedom in these areas. When you are ready to accept this, then you too, will be given greater freedom.

I would like to think that during the past year each of you were granted a little freedom, because you were willing to accept the consequences of your actions. To those who have not yet learned this, I hope that next year will increase your willingness to accept responsibility for your actions.

To the students and staff members who will be leaving Highlands School this year, I extend my very best wishes for a bright and happy future. To the students and Mrs. Johnston, who worked so hard in preparing this yearbook, I extend my heartiest congratulations on a job well done.

D. M. Assheton - Smith

# EDITOR'S MESSAGE

I have thoroughly enjoyed serving the students of Highlands as editor of the 1969 - 1970 Yearbook. Assembling a yearbook is a difficult task but we have managed to complete this year's, although at times, it seemed as if we may never accomplish it.

Although we have followed the basic outline of last year's edition, we have tried to make some improvements. The Yearbook is a little bigger and contains activities which we thought were left out last year. You will probably notice that we have used the same cover as before. This is because we thought there should be some type of carry over.

In assembling the Yearbook we have naturally run into many problems which we would have never overcome without Mrs. Johnston's superb management and guidance. It would only be fair to say there would not have been a Yearbook without her. I would also like to commend the staff of the Yearbook who have toiled steadily and contributed much of their own time to make the Yearbook a success.

I would like to wish everyone at Highlands success in the years to come.

# PRESIDENT'S MESSAGE

I was very pleased to have served you as presidents of the Highlands Junior High Students' Union this past year.

The school spirit was great at the beginning of the year due to the enthusiasm of the grade sevens and eights. I was pleased with the enthusiastic grade nines on the Graduation Committee who wished the Grad at the end of the year to be a success.

I would like to thank Mrs. Duff for helping us throughout the year by giving up her spare time to supervise our meetings, and I feel that both Mr. Campsall, who took care of the refreshments, and Mr. Armstrong, who was the head of the Grad Committee deserve a great deal of thanks for their support and encouragement. I would like to express my thanks also, to the executive as well as all the other students who helped the council, for their interest and participation in student activities.

Thank you again for letting me serve as your president and I wish you all the very best of luck next year.
